

Awaken, Align, Accelerate: A Guide to Great Leadership (eBook)

This is not a leadership book you will read, it is a leadership book you will use! Built on three proven concepts—the talent pipeline, MDA's Leadership Competency Model, and our unique Awaken, Align, Accelerate® development framework, this resource provides a fresh, comprehensive approach to leadership development and coaching. The guide is the collaborative effort of 21 authors, most with over 25 years of leadership development experience, and was reviewed by over 60 executives and professionals who provided valuable insight. Designed for ease of use, the guide features easy navigation and an intuitive layout. Each of the 16 key leadership competencies has a dedicated chapter which includes: a self-assessment, development suggestions, coaching tips, a case study, sample development plan and a sample coaching plan. Anyone interested in becoming a better leader or coaching others to be better leaders will find this guide invaluable.
